Agenda Item

Subject: Mid-Year Budget Adjustments

I. Background

Mid-Year Budget Adjustments are a financial planning tool that allows adjustments to the current year adopted budget for given accounts. It can also be used to create a budget for new accounts established after the beginning of a new fiscal year. The adopted fiscal year budget is a good faith estimate, and during the fiscal year may require adjustments.

II. Explanations of recommended adjustments

Brief explanations of the recommended adjustments to the adopted budget are attached:

- Personnel Services have been adjusted across multiple line items to account for changes to the collective bargaining agreement which took effect on October 1, 2019, as well as insurance renewals coming in lower than anticipated.
- Professional Services have been adjusted to account for increased legal expenses due to the arbitration of a grievance.
- Repair and Maintenances have been adjusted to account for the service of various assets and equipment.
- Supplies have been adjusted to account for the purchase of additional foam.
- Other Expenditures have been adjusted to increase training and per diem to cover more participants than anticipated.
- Capital Outlays have been adjusted to re-prioritize the capital needs of the District.
 Items added or adjusted: new heart monitors versus refurbished heart monitors,
 technical rescue equipment, waverunners, repair or purchase of fire boat and the
 replacement of Beach 10 truck. Items removed or postponed: kitchen remodel,
 generator replacement and mini pumper or small engine.

III. Recommendation

The recommended adjustments to the FY 2019/2020 build on the policies and decisions proposed by the Fire Chief and Board of Commissioners meant to support the future needs of the Department.
